

Good morning. I am writing in regards to LPFM. My radio station, KLOVE, would be adversely affected and a dis-service to my community and the nation would take place if LPFM is allowed to go forward. Millions of Americans all across the world depend on KLOVE each day. Even our troops abroad listen to KLOVE on a daily basis. We need more stations that offer this type of safe and encouraging music. People of all ages can listen to KLOVE and not worry about what is said. Not true of some of the radio stations that are allowed to broadcast garbage. People locally and around the world rally around this station. Proof being a 100% listener supported station. KLOVE sponsors local events that are safe for ALL people, of any age. Again, not true of some of the stations in this area. It is in the public interest to allow stations like KLOVE to exist because it is a safe haven for people of ALL ages trying to escape the junk that is allowed to exist. It is safe for our kids, and they are the future. Please consider these comments in your decision. Thank you for your time.
